Brothers George and Johnny Nikollaj, along with cousin Tomy Lulgjuraj, are the owners of 6 Salon. The three share a business philosophy that melds inspiring a talented and diverse staff, providing unparalleled customer service, and making their clients the most beautiful people in the world. From its start, the salon's owners have invested in design to provide a stunning work environment that reflects their values and highlights the importance of the one-on-one relationship between stylists and their clients. "When we started the

business, we recognized we couldn't do it all ourselves and that it was important to find a way to focus on the work we love to do," George says. "We assembled a team that also loves to do the work they do. Twelve years later, this still holds true, and we continue to go to the salon each day and interact with so many wonderful people. It's a beautiful life."
